LOW PORT OUT OF SCHOOL CLUB SCIO

INFECTION CONTROL POLICY

Lowport Out Of School Club SCIO ask that parents inform the setting if child is ill and adequate leave from the setting is taken to prevent the spread of infection.

Lowport Out Of School Club SCIO inform parents as soon as a child is sick and they are cared for until the parent arrives.

We promote the washing of hands before snacks and after using the toilet, hand wash is available at all hand washing stations.

Tissues are available at all times for runny noses and children are encouraged to cover their mouths when coughing. Children seen picking noses are sent to wash their hands.

Our equipment is washed down using anti-bacterial wash at regular intervals and before and after snacks and sprayed with Milton sterilising liquid.

Any bodily liquids are cordoned off and dealt with by a staff member wearing appropriate protective measures and disposed of accordingly.
